1. The terminal disclaimer filed on 11/26/2004 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US patent 6,660,921 has been reviewed and is accepted. The terminal disclaimer has been recorded.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claim 7 is rejected under 35 U.S.C. 103(a) as being unpatentable over Kraft (1,009,671) in view of Rickey (3,554,074).

Regarding claim 7, Kraft discloses a system for instructing a student to play music on a stringed instrument having a fingerboard, the system comprising: sheet music comprising a musical staff and musical notes (Fig. 1) with fingering numbers placed both above and below the musical notes (Fig. 1) for indicating the fret on the neck of the instrument to be engaged (page 1, lines 102-104), and the purpose of indicating to the player the particular strings to be acted on in articulating the respective notes (page 2, lines 18-21).

The difference between Kraft's system and claim 7 is that claim 7 recites colored fingering numbers placed above the musical notes.

Rickey teaches a device having colored fingering numbers (col. 6, line 1; col. 9, lines 53-55; col. 10, lines 15-23) for instructing a student the fingering corresponding to the string. It would have been obvious to one having ordinary skill in the art to modify Kraft's system as taught by Rickey to include colored fingering numbers placed above the musical notes for the purpose of instructing a student the fingering corresponding to the string.

4. Claims 1-6 are allowed.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
